The Password for desktop used in registering and accesssing thumb prints for all the staff was forgotten	Tari	4/9/2025	Mr. Pascal and Mr. Go	IT Department	Completed	I used a LASERSOFT SOFTWARE which remove passwords	There should always be a backup User or Administartor
A desktop was missing from the active directory of the server.	Gabriel Adekola	4/10/2025	*Complainer Name*	*Complainer Depar*	Completed	He had to login to the local user Administrator of the computer that was not added as part of the active directory. Remove it from the domainby adding it to a workgroup, and then restart the system. Futhermore we added the system back to the domain.	The Company should always have all local Administrator users on all the PC or Laptop with same passwords.
We encountered an error while trying to format the new HP systems. The error is "Windows could not parse or process unattend answer file" so formatting it was impossible.	Tari	4/10/2025	*Complainer Name*	IT Department	Completed	We disabled the secured boot option from the bios setings.	*Reccomendation*
Windows not booting from a HP Elinton Desktop. it is giving this error "log file:c:\windows\syatem32\logfile\srt\strtTrail.txt"	Tari	4/11/2025	*Complainer Name*	*Complainer Depar*	In progress	Tried formatting, but the i could not find the hardisk, but was not showing the C: drive, which means the hardisk is bad.	I recommended they get a new hardisk for the system
Installation of New OS (windows 11 22h2) on about 25 Laptops if not more	Tari and Adekola	4/15/2025	*Complainer Name*	*Complainer Depar*	Completed	We had multiple flashes, to enable the Job faster.	Team work is key
Installation of New OS (windows 11 22h2) on about 15 Desktop, 8 are done already.	Tari and Adekola	4/17/2025	*Complainer Name*	*Complainer Depar*	Completed	We had multiple flashes, to enable the Job faster.	Team work is key
The latest desktop we are installing the OS cannot run bootable flash, so i decided to use command prompt to delete the partition and is not seeing the hardrive now.	Tari	4/17/2025	*Complainer Name*	*Complainer Depar*	Completed	I downloaded Intel Rapid Storage Technology (RST-VMD) via this link and used it format the Desktop. You would have to know the version of the Intel Rapid Storage via the BOIS settings.	If you want to install a new OS to the latest desktop, make sure you boot the OS installed first before you format the system.

Completed the Installation of New OS (windows 11 22h2) on all the NEW DESKTOPS	Tari and Adekola	4/22/2025	*Complainer Name*	*Complainer Depar*		*Suggested Solution/ Action Taken*	Team work is key
New LAN cables were installed on the 2nd Floor, Wing B side, which may have caused temporary disruption to the network cables and Access Points (APs), resulting in a loss of connectivity. To resolve the issue, I compared the configurations between the Edge Switch and the Core Switch. After identifying the discrepancies, I reconfigured the switches to restore full network functionality.	Gabriel Adekola	5/12/2025	Second Floor Wing B	*Complainer Depar*	Completed	*Suggested Solution/ Action Taken*	*Reccomendation*
We encounter downtime on the 14th May, 2025. Because of electrical power failure in the server room, which bring the core switch to reset - We had to reconfigure it core switch back, after the maintainance Team restore electrical power	Mr Tayo and Adekola	5/14/2025	*Complainer Name*	*Complainer Depar*		*Suggested Solution/ Action Taken*	*Reccomendation*

link failure at Lagos link - Lagos disconnected with PoP Site - contacted Airtel support - resolved - Lagos link back up. In addition, from Airtel Support: There was a brief outage on the fibre path at the Airtel end	Mr Tayo and Adekola	5/22/2025	Zonal Office;- Lagos	Zonal Office;- Lag	Completed	*Suggested Solution/ Action Taken*	*Reccomendation*
We've been having a poor network with the TP-Link in Mail Unit department outside the building. To resolve the issue, i Disable the TP-Link DHCP (Dynamic Host Configuration Protocol) and i change the port to LAN instead of WAN. With that the TP-Link automatically act as a SWITCH there and they where receiving the accurate network speed from the building	Wisdom	5/23/2025	Mail Unit	Mail Unit	Completed	*Suggested Solution/ Action Taken*	*Reccomendation*
The issue involved client systems failing to communicate with printers and experiencing internet connectivity problems due to an incorrect gateway configuration. The problem was resolved by re-adding the printers to the affected computers and resetting the network settings using ipconfig /release, ipconfig /renew, and ipconfig /flushdns commands.	Wisdom and Adekola	5/26/2025	Legal and Account	*Complainer Depar*	Completed	*Suggested Solution/ Action Taken*	*Reccomendation*
On May 28, 2025, both Internet Service Providers (ISPs) experienced downtime affecting network connectivity across the organization. Details: The outage began around [12pm] and lasted for approximately one hour. Actions Taken: Connectivity tests were performed to confirm the scope of the outage.	Gabriel Adekola	5/28/2025	*Complainer Name*	*Complainer Depar*		*Suggested Solution/ Action Taken*	*Reccomendation*

May 28th SI Department called us to join them in checking a laptop case reported, to check if the Mac pro 2023 is a new one or not. I use mac Terminal to check for the serial number and also check the serial number from Apply page. That was after the owner unbox.	Wisdom	5/29/2025	*Complainer Name*	*Complainer Depar*	Completed	*Suggested Solution/ Action Taken*	*Reccomendation*
Last week involved a series of routine but essential IT support tasks aimed at keeping systems running smoothly for clients: Printer Reconnection: Re-established the connection between client systems and their network printers to restore seamless printing functionality. Email Password Reset: Assisted users with secure password resets to regain access to their email accounts, ensuring minimal downtime and enhanced account security. Wi-Fi Connectivity Issue: Resolved a computer's inability to connect to the Wi-Fi network—troubleshooting and restoring full internet access for the end user.	Wisdom and Adekola	6/5/2025	*Complainer Name*	*Complainer Depar*	Completed	*Suggested Solution/ Action Taken*	*Reccomendation*
Incident Report: Access Point and Internet Restoration Time of Occurrence: Morning hours, after resumption from a two-day break plus weekend Summary: Upon arrival at work, it was observed that there was no internet connectivity across the building. All Access Points (APs) were down, and even wired connections were not functional. Initial investigation indicated the likely cause to be a power outage that occurred during the break. Actions Taken: Core Switch Reconfiguration: The Core Switch was reviewed and reconfigured to restore network routing and internet access across the LAN infrastructure. Internet connectivity was successfully re-established for most endpoints and wireless clients. Issue with AP1 on Second Floor Wing B: Noticed that AP1 was not joining the Wireless LAN Controller (WLC), while AP2 on the same floor and wing was working fine. Checked the edge switch configuration and observed that: AP1 was assigned to VLAN99 AP2 was on VLAN24, which is the correct VLAN for AP traffic in this segment. Corrective Action: Reassigned AP1 from VLAN99 to VLAN24. AP1 successfully rejoined the WLC and resumed normal operation. Result: Internet and wireless connectivity fully restored. All APs, including both AP1 and AP2 on 2nd Floor Wing B, are now online and operational.	Mr Tayo and Adekola	10/6/2025	IT Department	IT	Completed	Reduce Load on weekends on Data Center Power Backup. Review Core Switch Registry file to ensure there will be no loss of Startup Config in the event of a Power Surge	Recommendation: Perform a VLAN audit for all AP ports to ensure consistency. Consider implementing port-based naming conventions or documentation to prevent VLAN misconfigurations. Optionally configure port security or monitoring to alert on incorrect VLAN assignments in future.
